JOHNSON CONTROLS

We're working on the future. That's Us!
Planning a tomorrow just a dream away. That's Us!
We can make tomorrow happen,
If we just work together all the way.

We've got a plan for building. That's Us!
We make service with performance equal quality. That's Us!
We've got the programs and we've got the products,
And we've got the people like you and me.

And we're buildings. That's Us!
And products. That's Us!
But it's you that makes us what we are and what we'll be.

We're research. That's Us!
And teamwork. That's Us!
Now we're reaching out to be that most that we can be.

And we'll build a better future
On the name that people trust,
Johnson Controls. That's Us!
